

ACO

Activ O

CLEANER/DEGREASER WITH ORANGE SOLVENT

DESCRIPTION

The original Activ VIII patented non-butyl cleaner degreaser now fortified with d-limonene which is the natural solvent extracted from the skins of citrus fruit. It is not only safer than petroleum solvents, but more effective in dissolving typical greasy, oily soil...and its citrus scent leaves a pleasant aroma in the work area after it is used.

USES

For use in removing greasy, oily soil from tile, concrete, marble and terrazzo floors as well as to clean such things as conveyors, vending machines, tools, garbage and trash containers, etc.

HOW TO USE

FOR GENERAL CLEANING AND DEGREASING: Use one part product with 20 parts water.

FOR HEAVIER CLEANING: For printing presses, industrial machinery, etc., use one part Activ O to 4-8 parts water.

For such things as cleaning and degreasing automobile engines, use with equal parts of water.

Apply with a low pressure sprayer or mop. Allow to stand a few minutes, then rinse off with high pressure or plenty of water.

BENEFITS

NON-BUTYL: 2-Butoxyethanol (butyl) is frowned on by some because it is suspected of harmful effects if absorbed through the skin.

NO PETROLEUM OR CHLORINATED SOLVENTS: A further indication of the safety of Activ O.

DEGREASES: Dissolves or emulsifies difficult to remove greasy, oily soil, not just easily removed dirt.

FAST ACTING: Cleans heavily soiled surfaces without hard scrubbing.

NON-FLAMMABLE/NON-COMBUSTIBLE: May be used for many jobs instead of hazardous solvents.

SPECIFICATIONS

APPEARANCE.....Orange liquid
ODOR.....Pleasant citrus
SPECIFIC GRAVITY.....1.060 ± 0.005
DENSITY.....8.85 ± 0.05 lb/gal
BOILING POINTNear 212°F
pH.....12.5 ± 0.5
FLASH POINTNone to boiling
STABILITYOne year minimum
USDA RATING.....A4
