Mandarin Magic

ORGANIC ORANGE SOLVENT CLEANER/DEGREASER

DESCRIPTION

Mandarin Magic is basically undiluted citrus solvent as extracted from the skin of citrus fruit, then emulsified so that it can be diluted with water as needed. In its emulsified form it is easily mixed with water for use as a safer, more efficient substitute for a multitude of jobs that previously required standard or chlorinated petroleum solvents to do a job.

USES

Cleans, degreases and deodorizes. Removes grease, grime, dirt, oil, tar, dyes, carbon, crayon, soot, resins, gums, lipstick and soap scum. Maintains drains, grease traps, etc.

HOW TO USE

CLEANING & DEGREASING: Dilute 3-4 ounces per gallon of warm water.

HEAVY DUTY: Dilute 16 oz. per gallon. Apply generously to grease and soil covered surfaces with a sponge or mop. Allow to set for 3 to 5 minutes. Rinse with water.

DRAIN OPENER: Pour 6-8 ounces of product into drain. Allow to stand for one hour. Flush drain with hot water for 3 minutes.

NOTE: DO NOT USE IN PLASTIC PIPES.

DEODORIZE: Mix 3-4 ounces per gallon of water. Apply with a sprayer to trash cans, bathrooms, dumpsters, etc.

STAIN REMOVAL: Mix 2 ounces per gallon of water and apply to a cloth and wipe towards the center of the spot from the edge.

GREASE TRAPS: Initial Treatment – Use 1 pt. (16 oz.) for each 10 gallons of trap capacity. Let stand for about an hour and flush system with pressure hose and water. Preventative Maintenance – Use 1 oz. per gallon of trap capacity per week.

BENEFITS

EMULSIFIED CITRUS SOLVENT: Mandarin Magic contains no petroleum solvents but is emulsified d-limonene citrus solvent with its magic appeal of dissolving grease and oil.

DEODORIZES: Removes the source of foul odors and emits a pleasant citrus fragrance that erases any foul odors in the air.

FAST ACTING: Mandarin Magic's high content of citrus solvent removes soil and stains that typical cleaner/degreasers won't touch.

MULTI-PURPOSE: Mandarin Magic has great versatility in use because it is a solvent that can be mixed with water for individual jobs.

SPECIFICATIONS

APPEARANCEOrange liquid
ODORCitrus
SPECIFIC GRAVITY0.840 ± 0.005
DENSITY7.01 ± 0.05 lb/gal
BOILING POINT340-370°F
pH.....Not applicable
FLASH POINT110°F
STABILITYOne year minimum
