No Time

WAX STRIPPER REMOVES MULTIPLE COATS WITHOUT A FLOOR MACHINE

DESCRIPTION

No Time represents the very latest technology in floor finish strippers with a superior product for fast and complete removal of old finishes without need of a floor machine. No Time does not just soften old finish, it penetrates and liquefies to break its bond with the floor allowing it to be washed off, not scrubbed off.

USES

Formulated especially for quick, thorough stripping of all brands of floor finish from all types of floors – vinyl, VAT, VCT, rubber, linoleum, epoxy, etc.

HOW TO USE

NORMAL STRIPPING: Mix 1 part to 8 parts warm or cold water. Apply solution with mop to floor liberally. Keep floor uniformly wet for 3 to 5 minutes. Some agitation may be required. Remove solution with wet vacuum. Allow floor to completely air dry (about 30 min.). Recoat with floor finish.

HEAVY DUTY STRIPPING: For heavy build-up dilute 4:1, follow above directions.

LIGHT STRIPPING: Dilute 16 parts water to 1 part stripper, follow above directions.

BENEFITS

REMOVES MULTIPLE COATS: No Time doesn't just soften the top coat or coats of built-up floor finish. It completely liquifies all coats so finish need only be rinsed away without scrubbing.

HOLDS ITS POWER: No Time still has effectiveness after stripping an area and may be squeezed to a new area before strength is exhausted.

BETTER FOR FLOORS: It's much better for the floor to use this most effective stripper and get the job done quickly than to use a less effective product and have to re-wet the floor over and over and risk stripper getting under tiles.

SPECIFICATIONS

APPEARANCEClear liquid
ODORButyl
SPECIFIC GRAVITY.....0.970 ± 0.005
DENSITY.....8.09 ± 0.05 lb/gal
BOILING POINTNear 212°F
pH.....12.0 ± 0.5
FLASH POINTNone to boiling
STABILITYOne year minimum
