# Pearlee

## PEARLESCENT LOTION SOAP

### DESCRIPTION

A superior quality soap for quality minded people. Just the opalescence of Pearlee implies its high quality. Then in use, its pleasant feel on the skin, its deep cleaning without irritation and its pleasant fragrance confirm the fact that you really care about your clients and employees. Pearlee is not an ordinary soap. It is made of 100% coconut oil for the excellent lather and cleaning that coconut oil is known to produce, and all the natural glycerine in the oil is retained to make it soft on the skin.

### USES

Pearlee is ideal for hand washing – for both light duty and heavy duty cleaning. Its viscosity makes it ideal for use from either dispensers or squeeze bottles in showers for complete body washing. As a hair shampoo, Pearlee gives high lather, excellent cleaning and thorough rinsing.

### HOW TO USE

To be used in concentrated form or, if desired, can be diluted with water by as much as 1/3 or 1/2. (Any dilution will reduce its viscosity.) Wet the hands, hair or skin with water. Then add a few drops of soap. Rub into a lather to clean. Rinse off with clear water.

### BENEFITS

**RICH LATHER:** Just a drop or two produces abundant, lasting suds.

**DEEP CLEANING:** 100% coconut oil makes for superior cleaning and quick removal of stubborn soil.

**KIND TO THE SKIN:** Retaining the glycerin in the coconut oil and adding lotionizers makes Pearlee kind to the skin.

**ATTRACTIVE FRAGRANCE:** An unobtrusive fragrance that's pleasant to both men and women.

**ECONOMICAL:** Use full strength for maximum impact of quality, but can be diluted if desired.
