

BETTER DEAL STIMULUS PRODUCTS

We know that businesses are looking to control their costs due to shrinking budgets. In response Bullen has created a new line of products that are of the highest quality and performance at the lowest cost.

No-Bull Hand Soap 2-1 Hand Soap is a high quality, mild, liquid hand cleanser that is really two products in one. It can be used "as is" through the use of a conventional liquid hand soap dispenser. In addition *No-Bull Hand Soap* can be dispensed as a creamy foam through the use of pump foamer systems. By adding 2 parts of water to one part of product, *No-Bull Hand Soap* is converted to a pumper foamer product.

Stimulus Products at the right time

Many years ago during the last recession we came out with a group of products called Bottom Line. They were the highest performing and lowest cost solutions we could develop at the time.

We now have a similar problem (if not worse) with the economy so our chemists have looked at the original Bottom Line products and using state of the art technology we have improved performance and the environmental foot print of the line. With the new politics we have re-branded the line as No Bull-Better Deal Stimulus Products.

NO BULL LIQUID HAND SOAP

APPEARANCE.....Milky
pH.....9.5 -10.5
