

Cannaclean Smoke and Odor Eliminator

Fragrance Free, developed for difficult to remove smoke & vaping odors

Do you have vape & smoke odor problems?

There is now more than one type of smoke to deal with in your establishment. Cannaclean Smoke & Odor Eliminator is a proven product in the retail market for over 3 years and now you can use it in your facility.

Cannaclean Smoke & Odor Eliminator super concentrate is fragrance-free and uses patented odor control technology. It does not mask the odor but chemically alters the molecules, eliminating them. Cigarette, vaping, and marijuana smoke can all leave behind odor residue that is very hard to remove.

- Highly Effective against Vaping Odors
- Fragrance Free, Does Not Mask
- Patented Odor Control Technology
- Return Smoking Rooms to Service Faster
- Great for Fire Damage Odor Removal
- Super Strength Formula

Testimonials: "We are so grateful to have found a product that eliminates smoke and vaping odors without blanketing the rooms with heavy perfumes" Steve, NJ

"You can really eliminate the marijuana and vaping smell " Phil, VA

"Whenever we had to use a smoke odor eliminator in the past, we ended up with rooms that had a very strong, distinctly different smell like orange, cherry, or cinnamon. With the Cannaclean S&OE we can use the product to eliminate the smoke order without changing the smell of our rooms. We love it! Bob, CA

"This product has helped to solve our elevator issue with pot/vape odors. We can quickly treat the elevators without people complaining about the strong smell of the odor eliminator we used to help fix the problem in the first place." Taylor, MA

HOW TO USE: If the odors are not that intense a few sprays in the air is all it takes. If in a hotel room, spray the air and the curtains & upholstery since fabrics absorb smoke. If you need to treat a large area or one with heavy smoke odors, we suggest the use of a ULV fogging unit. Ask customer service for a list of suggested foggers for use.
