

MICRON WIPES®

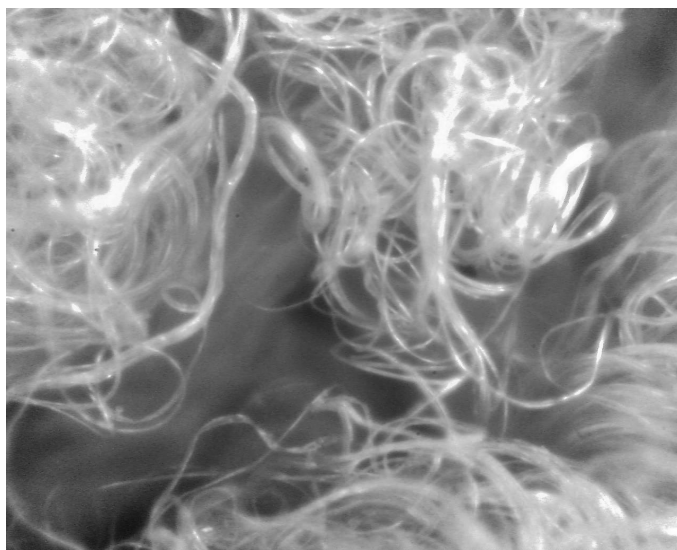

MICROFILAMENT CLEANING CLOTHS

- 5-10 times thinner than microfiber
- Lint-free and non-woven, no fraying
- Absorbs 5 times its weight in liquids
- Color coded for use (red, blue & green)
- Washable & reusable
- Fast drying

The thinner Micron microfilament traps more dirt, dust, liquid, and bacteria than conventional microfiber. The pictures below are viewed at the same 200+ magnification showing the difference that makes for more effective cleaning performance.

200x microscope shot of Microfiber Cloth

Washing Instructions

Wash in warm or hot water with a mild detergent, no fabric softeners. Fabric softener and bleach will eliminate the electric charge that makes Micron Wipes® so effective. Tumble them dry on low heat or no heat. High heat could melt the fibers. Dry with other microfiber products so they don't pick up lint or other loose fibers. Avoid drying with cotton.
