

ONE UP

AGGRESSIVE NEUTRAL CLEANER MEGA-CLEAN

AGGRESSIVE NEUTRAL CLEANER

Made especially for maintaining high gloss floors and other hard surfaces. Will not leave a film or dull gloss.

Mega-Clean is formulated to really clean high gloss floors. With a pH just above neutral it has the alkaline punch to remove soil but not dull the gloss of the finish. At in use dilution it closely matches the pH of the finish. Mega-Clean is the finest cleaner available for high traffic, high gloss floors. Formulated with a pleasant odor counteractant that leaves a refreshing clean scent in the area after use.

Directions:

For complete application instructions see the ONE UP Floor Care Application Training Guide.

SPRAY & WIPE: Mix 2 ounces of Mega-Clean with one gallon of water. Spray or sponge onto surface to be cleaned. Wipe with clean cloth.

FOR DAMP MOPPING: Mix approximately two ounces of Mega-Clean Neutral Cleaner per gallon of water. Apply as you would an ordinary cleaner, but there's no need to rinse.

FOR AUTOMATIC SCRUBBING MACHINES: Mix approximately one ounce of Mega-Clean Neutral Cleaner per gallon of water in the solution tank. Apply, scrub and pick-up as you would ordinary low-foam cleaners. No need to rinse.
