

UNIVERSAL ANTI SLIP FLOOR RESTORATION COMPOUND

Clean, Polish, Anti-Slip & Rehabilitate any floor in one easy operation.

REHAB UNIVERSAL FLOOR RESTORATION COMPOUND is a unique technology designed to restore your floors to their original or better gloss, durability and making the floor one of the most slip resistant surfaces in your building. It can be used on any floor finish with any speed floor machine.

Directions:

If floor is relatively clean it need only be dust mopped. Damp mop with REHAB to clean lightly soiled floors or auto scrub using 1/2 to 1 oz. per gallon of water.

For mop restoration application - Dilute 2 ounces of REHAB per gallon of water. Using a clean mop apply to floor as if damp mopping, if using as a cleaner allow to sit for 3-5 minutes then pick up solution; allow to dry and burnish with floor machine and a burnishing pad.

For spray restoration - Dilute 6 ounces of REHAB per one gallon of water. Apply ahead of burnisher using a course stream; burnish to a gloss.

For auto scrubber restoration - Dilute from 1/2 - 2 ounces of REHAB per one gallon of water. Scrub using red pad and a double pass procedure. Allow to dry; burnish with floor machine and a burnishing pad.
